Thank you. I heard from NFRC that they expect to complete the review within a few weeks. I'm looking forward to getting this resolved quickly. Frankly it makes me ill to think that we had a failure. We've been selected several other times for verification through the IVP with no issues. I can't believe that we had this issue.

Have a good rest of your week

Dear (b) (4)

(b) (4) dispute for (b) (4) has been received.

The testing failure at issue is under review. Until that review is complete and EPA makes a determination of the product status, no product control measures are required to be submitted. Once the review process is complete, you will receive additional information about the outcome's effect on your product's status and any required actions associated with it.

Thank you.
